DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13, line 1; the equation is incomplete because the term $p(x)$ fails to be present. In lines 4-5 the meaning of the phrase "expanding A into matrix form" is indefinite because A is already a matrix, i.e. a vector is a matrix, and the expanded A matrix fails to be clearly defined i.e. the respective elements of the expanded A matrix fail to be defined. Also in claim 13 note that in the "wherein" phrase of lines 6-7 ϕ fails to be defined. Finally in claim 13 lines 5-6 are mis-descriptive because each of the elements in each column are not sequentially generated, i.e. are not the columns sequentially generated? Claims 1, 7 and 19 contain deficiencies similar to claim 13. ✓

Allowable Subject Matter

2. Claims 1-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Specification

3. The first four lines of claim 8 are duplicative of the last four lines of page 7.

Drawings

4. It appears that Figs. 6-9 should be labeled "Prior Art".
5. The specification numerically references particular elements of the drawings e.g. element 11 in lines 14-15 of page 11, but the elements in the drawings fail to be so numbered.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (703) 305-9762. The examiner can normally be reached on M-Th from 7:30 to 6:00.
